## PROFESSIONAL EXPERIENCE

### Resonate Fitness

March 2026 – Present

#### SDE Intern – Flutter

Remote

- Built scalable UI components and screens using **Flutter**, leveraging state management solutions such as **Riverpod** for clean architecture, maintainability, and efficient state management
- Integrated third-party services including **Firestore** and optimized network/API handling, reducing latency and improving application stability and performance optimization
- Collaborated with backend and design teams to integrate **RESTful APIs**, manage application state efficiently, and optimize app performance for production deployment and agile collaboration

### Maya Exchange

July 2025 – Sept 2025

#### Android App Developer Intern

Remote

- Produced and refined Android application features using **Kotlin** and **Jetpack Compose**, improving UI performance and user responsiveness for over **1000+ potential users** in the crypto-fintech ecosystem
- Integrated APIs for **real-time cryptocurrency data**, enabling instant wallet updates, secure transaction tracking, and enhancing overall user experience by reducing latency by **20%**
- Collaborated with product and backend teams to design and implement secure authentication flows including **OAuth2** and biometric authentication, ensuring compliance with financial security standards including **KYC/AML**

## POSITION OF RESPONSIBILITY

### E-Cell, IIIT Bhopal

December 2025 – Present

#### Coordinator

- Led end-to-end execution of flagship events including **IPL Auction** and **Paintball** with over **600+ participants**, managing a cross-functional team of **20 members** and ensuring smooth on-ground operations
- Secured title sponsorship from **Adani ACC** for the cultural fest through E-Cell by driving external partnerships and handling sponsor coordination and deliverables

## PROJECTS

### GoodDeed – Android Application | Kotlin, Jetpack Compose, Firebase, Google Maps API

GitHub

- Engineered a native Android app from scratch with **20+ screens** using **Jetpack Compose** and scalable **MVVM architecture**. Designed and added **2 distinct role-based user flows** while managing complex UI/UX state transitions
- Architected a complete **Firestore backend**, utilizing **Cloud Firestore** to manage **4 interconnected real-time data collections** and **Firestore Storage** for user-generated image content
- Integrated **5+ full-stack features**, including **Google Maps API** integration, community feed with **CRUD operations**, and a gamification engine awarding **5+ unique badges**

### MentalWellnessTracker – Android Application | Kotlin, Jetpack Compose, Firebase, MVVM

GitHub

- Systemized and deployed a Full-Stack Mental Wellness Tracker application with authentication using **Firestore Authentication** and persistence using **Firestore**, implementing local **AES-256 encryption** for secure journal entries
- Programmed a comprehensive dashboard featuring **three real-time charts** using the **Vico charting library** and formulated personalized recommendation algorithms using **7-day average mood analysis**
- Revamped the user interface using **Jetpack Compose**, improving UI/UX quality by **40%** through a **Material 3 theme** while resolving lifecycle and authentication issues

## ACHIEVEMENTS

- Secured **2nd Runner Up** among **250 teams across India** in the App Development category at **Suprathon Hackathon**
- Achieved **13000+ points** by solving **120+ coding challenges** with **CodeChef Rating - 1573** and **LeetCode Rating - 1652**
- Secured **Global Rank 33** in **CodeChef Starters 219 Rated Contest**

## SKILLS

**Programming Languages:** Kotlin, C++, C, HTML, CSS, MATLAB

**Mobile Application Development:** Android Development, Jetpack Compose, MVVM Architecture, Firebase, RESTful APIs, State Management

**Tools & Technologies:** Git, GitHub, Firebase Authentication, Cloud Firestore, Firebase Storage, Riverpod, Visual Studio Code

**Core Concepts:** Data Structures & Algorithms, Object Oriented Programming, DBMS, API Integration, Performance Optimization

**Design Tools:** Figma, Canva, Photoshop, Illustrator, Picsart

## EDUCATION

### Indian Institute of Information Technology, Bhopal

Sept 2023 – May 2027

Bachelor of Technology in **Electronics and Communication Engineering**

**Relevant Coursework:** Data Structures & Algorithms, Object Oriented Programming, DBMS
